

Five Things We All Can Do For Earth Day and Climate Change

1. Reduce Your Water Intake

Take shorter showers, turn off the faucet while you're brushing your teeth, only wash full loads of laundry.

2. Unplug

Electronic devices plugged in on "standby" mode account for up to 10% of your home's energy use. Unplug when not charging.

3. Turn the Lights Off

Turning the lights off is a cost-effective way to reduce wasted energy. Utilizing LED lights use lower wattage are also effective.

4. Reduce Your Plastic Usage

Invest in a waterfilter to reduce water bottle purchases, carry your own reusable water bottle, bring your own bags or totes to the grocery store. Stop using plastic straws.

5. Drive the Speed Limit

You can improve your car's fuel economy by 7 to 14% simply by obeying the speed limit.
